

ITSoftware

Uniquely designed for business needs . . . integrated software for decision support *and* data processing

Most integrated PC software can provide the quick answers that managers need in day-to-day decision-making. Quick budget projections. A graph of sales.

But for serious business use, software must offer more. Full support for the data processing applications that form the heart of corporate computing. And links to mainframes where critical data often resides.

ITSoftware offers eleven full-function packages that can stand alone or work together to meet your business needs.

ITSeries Programs

KeepIT™, the core of the series, is a menu-driven relational data base management system that integrates your applications . . . lets you share data and calculations with other ITSeries programs, with other popular PC-based software, and with mainframe data bases such as Martin Marietta's RAMIS II.

AskIT™ is a KeepIT front end that provides data base power at the touch of a finger.

CalcIT™ offers advanced arithmetic and graphing features in a powerful 3-D spreadsheet.

WritIT™ is a private label release of MultiMate with the power of a dedicated word processor on a PC.

ShowIT™ provides state-of-the-art business graphics.

StatIT™ offers a complete array of statistical routines.

LinkIT™ is a menu-driven asynchronous communications package offering PC-to-PC or PC-to-mainframe links.

PassIT™ offers high-speed bisynchronous file transfers between an IBM mainframe and a PC.

SortIT™ is the fastest sort/merge utility available for a PC.

EditIT™ is a full-screen color program editor with easy-to-use windows.

CallIT™ offers a network-based telephone messaging and calendar program that's especially easy to use.

For IBM, IBM-compatible, and MS-DOS microcomputers.

ITSoftware . . . ask for IT by name.
